UNU & BUKTO

SHELF · WARDROBE & STAND SYSTEM

Design by Bønnelycke mdd

FROST: PURE DANISH DESIGN

Our vision and focus is to provide a "Complete Interior Line" of elements which evoke "Inspiration Through Design".

We provide a unique approach to solving age-old questions, as well as constantly seeking new ways to fill the ever-changing niches due to advances in technology and everyday lifestyles.

Our line has passion and commitment to improving the everyday life of its audience through our signature way of creating function with style.

Our Danish Design Culture is conveyed through our own unique style and approach which blends function with design and approaches solutions with creativity.

FROST wholly embraces the concept that function is nothing without truth in form.

At FROST, we strive for excellence in creating innovative concepts, developing pure design which is executed via techniques that produce high quality "Interior Design Solutions"...

www.frost.dk

THE BUKTO SYSTEM

The BUKTO is an elegant free standing system for hanging clothes.
A version with castors is also available offering greater flexibility.

The clothes stands are made in two widths, 600 and 1000mm, to fit into any store, hallway or dressing room.
The BUKTO stands are all made from steel and have a powder coated finish of black or white.

THE UNU SYSTEMS

The UNU System encompasses furnishing products for wardrobes, hallways and living rooms.
The edging profile, characteristic of the series, bestows a slender and elegant look while
providing endless possibilities for a well-defined and complete expression.

The UNU System is made from solid 4mm aluminium with a powder coated finish in either black or white.

The UNU Shelf System is based on aluminium shelves, all available in either 600 or 1000mm lengths.
In addition there is a complementary small shelf measuring 150x150x150mm as well as a magazine / shoe shelf
and book supports in three different sizes to match the three different heights of the shelves.

The UNU Wardrobe System also comes in the lengths 600 and 1000mm, and in addition a smaller 200mm version
is available. The hooks and the chromed hanger bar create a complete wardrobe system.

Since both the UNU Shelf and the Wardrobe systems are mounted on the same wall bracket, all items can be mixed
and matched to suit your changing needs, the shelves may even be turned upside down - The UNU System
sets a new standard for modular shelf systems.

The BUKTO System and the UNU Systems are designed by Bönneleycke mdd.

BØNNELYCKE MDD

Bønnelycke mdd was established in 1988. Driven by an unsuppressable urge to work constructively and innovatively,

Henrik Bønnelycke started his career with the design of lamps, furniture and interior decorating.

Quickly, he became known as an unconventional architect with no whims and fancies.

His ability to challenge and optimize the manufacturing process itself is to be found in Henrik's original professional background as a toolmaker.

"It could be fun" and "of course it can be done" - are phrases often used in his company.

This has resulted in a comprehensive portfolio of projects and designs - spectacle frame design, racing boats, lighting, furniture and buildings to name a few - several of them award winning and patented designs.

Bønnelycke mdd is truly a multi disciplinary design company with both national and international experience.

They are perfectionists with professional curiosity, and provide a wide variety of design disciplines encompassing architecture and interior design, furniture design and product design to communication assignments, graphic design and web design.

At Bønnelycke mdd they do not design for the sake of it.

They believe that design does not hold any values per se. To Bønnelycke, the value of a design emerges when a product has relevance and when it is purchased, used and appreciated - this is why they design.

In Bønnelycke's own words:

"We are comitted to providing our clients with what they pay for - which is their own design !"
