FROST

Our passion for architectural hardware forms the basis of the establishment of our company FROST.

Early on, we ventured into a close cooperation with the young and progressive design company Bønnelycke mdd, Denmark. This cooperation has manifested itself in a solid structure ensuring stylistically consistent and focused designs reflecting the high quality, aesthetics and functionality for which Scandinavian designers are known worldwide.

The design of each product series logically incorporates the support material such as graphic identity, catalogues, packing and the website into the products, which is in complete agreement with FROST's philosophy of quality being more than just a stainless steel grade.

At FROST, we develop and manufacture bold and innovative product series and systems with an international touch for the furniture industry, the building industry and the trade industry.

Our product series range from handles for furniture and other inventory to kitchen and bathroom supplements and small finished furnishing products for wardrobes and hallways.

At FROST, we believe that quality is a combination of several factors: demand, analysis, design, prototyping, manufacturing, marketing end support.

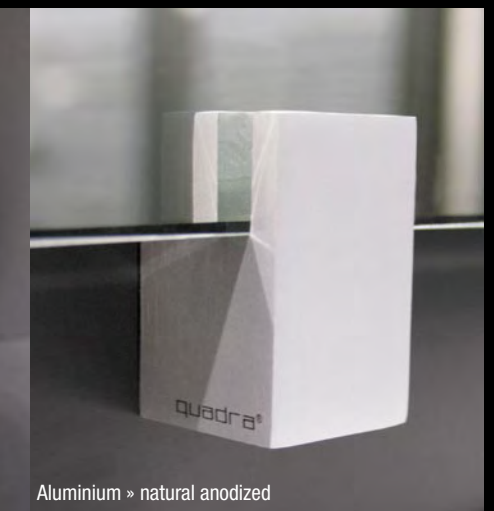

When the issue is quality, we do not compromise !

Welcome to FROST's BOOK 2.

Handles for furniture, bath furniture and kitchens.
 Kitchen accessories.
 Bathroom accessories.
 Wardrobe accessories.

Consistent details such as the shadow edge between the mounting surface and the product compliments the discreet and complete series. All elements are interpretations of the meeting between the stringent form and the cylindrical form - this is quite apparent on the hooks for the system.

UNU

Small finished furnishing products for wardrobes.

Small finished furnishing products for hallways.

Small finished furnishing products for living rooms.

The characteristic edging profile of the UNU series provides a slender look. The edging profile is also used constructively for e.g. placing of the mirror, so that a well-defined and complete impression is achieved.

quadra®

Handles for furniture, bath furniture and kitchens.

Kitchen accessories.

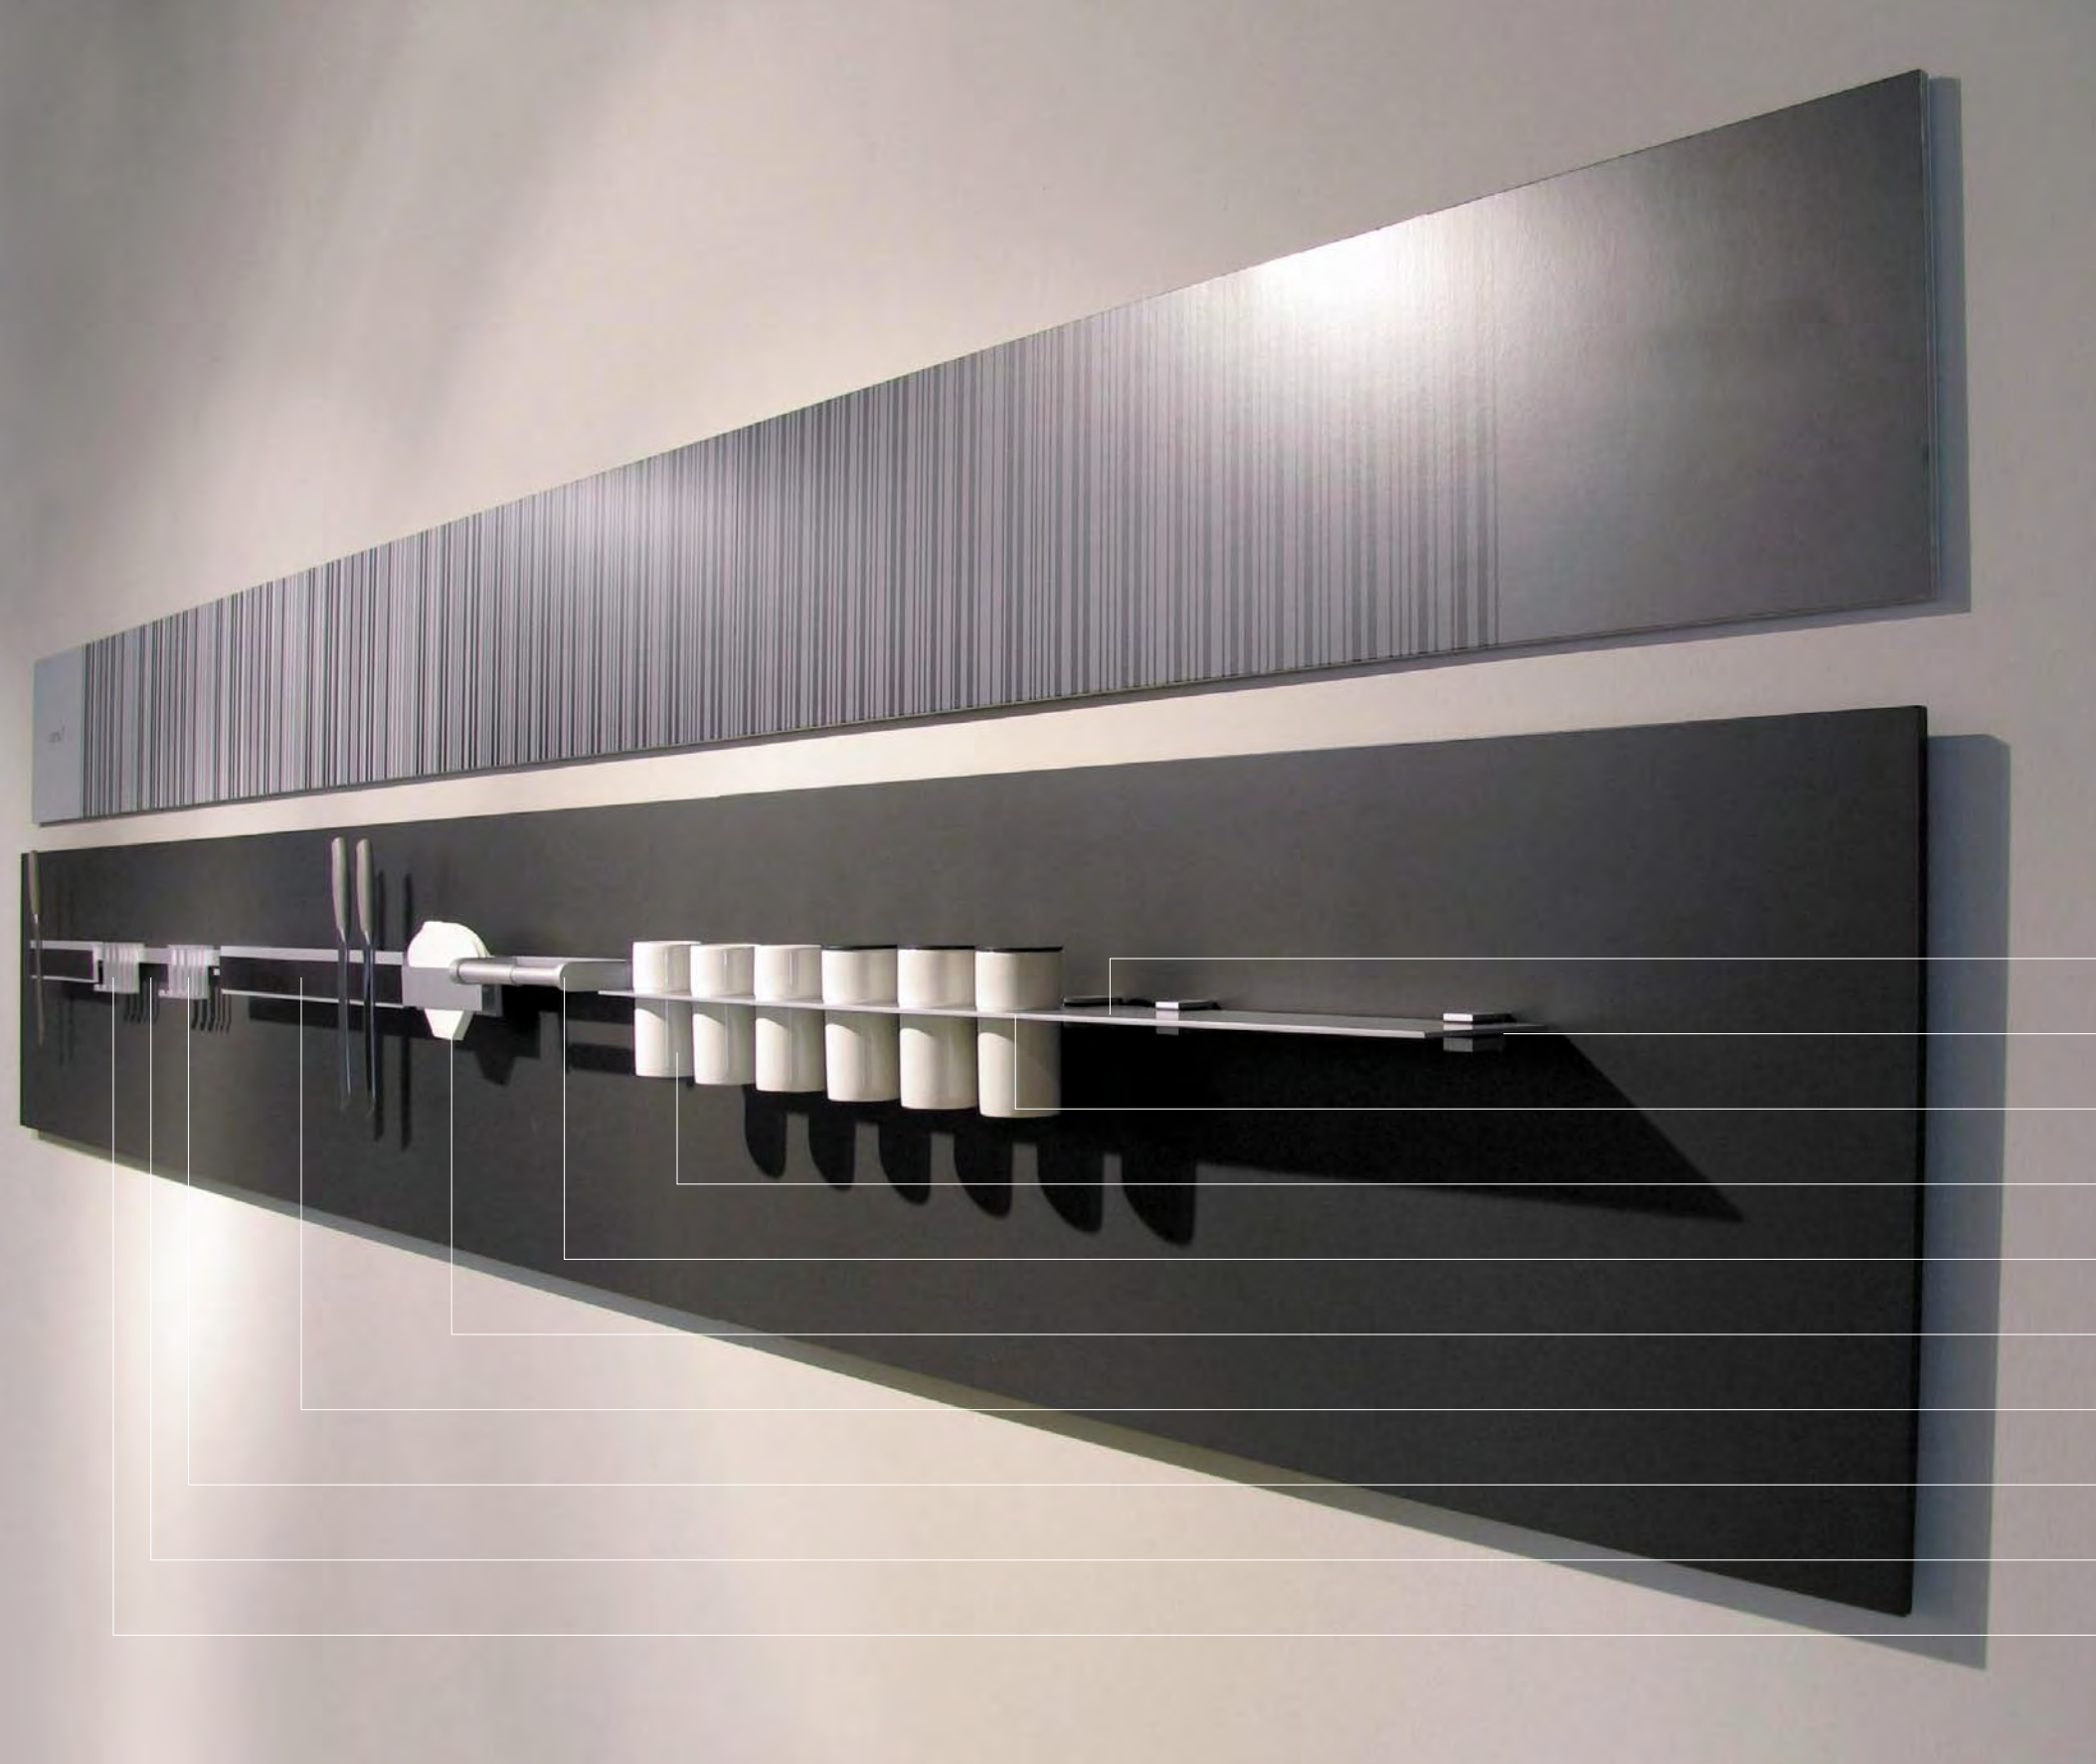

Bathroom accessories.

Wardrobe accessories.

The proportional dimensions 8:5:3 define the QUADRA series as architectural building elements, which can be combined into various constructions.

When combined, the clear-cut and stylistically consistent details form a characteristic and well-defined system.
