## **DESIGN AND BUSINESS WITH A PASSION**

We are thrilled to introduce you to the latest additions to our current collection – our new range of ARCHITECTURAL HARDWARE.

With the emphasis on versatile design, clean lines and endless combination possibilities, this new concept creates a modern and yet timeless range of hardware such as door handles, door knobs, window handles and door stops.

We believe they give building architects and end-users a whole new set of tools to help achieve perfection in the important details of a building or a home by providing the finishing touches and functionality needed in our modern world.

We have already received national and international awards for our cutting-edge design and for being one of the most successful companies in our line of business. We are delighted and grateful that you, our valued customer, have chosen to be a part of that exciting story.

With these products, we hope that we continue to demonstrate our success as one of Denmark's fastest growing companies.

01

Wishbone is the work of the award-winning Danish design duo busk+hertzog. Designs by Flemming Busk and Stephan B. Hertzog are characterised by pure, uncluttered lines and a simple, direct idiom. Believing that anything decorative should also have a function, busk+hertzog elegantly combines practicality with exclusive designs.

The Wishbone coat stand is charismatic and poetic in appearance. The purist replication of a tree trunk with branches acted as inspiration for this design idea.

Not only is the stand highly functional, but it offers a variety of visual options designed to look great in modern spaces. In the upper part of the stand, the material combination strives for a cool look in steel while the base and lower half of the stand are made of powder-coated steel available in black, white, red or lime green.

# CAMOUFLAGE

design: busk+hertzog

In designing Camouflage, the designers busk+hertzog have created a unique product that encourages the consumer's own creativity.

Camouflage is a wall-mounted coat rack that can be set at three different distances from the wall. It comes in a wide range of colors and can be placed in countless ways. This leaves you with the opportunity to create your very own three-dimensional wall decoration, while providing plenty of hanging space for coats, umbrellas, scarves and bags.

Unique in thought and function, genius in simplicity.
